

## Double Happy

Double Happy is a program for running **social doubles events**. Such events are typically run on **one day** or evening. You have a group of players who are usually of **mixed ability**. You have a number of courts available. Your mission is to organize play so that everyone gets several enjoyable games. Each game should be with **different partners and against different opponents**.

Sounds easy - but the truth can often be frustratingly different. It's tough enough keeping track of who has played with who, but even tougher to also balance the skill levels of all the players.

Double Happy can quickly help you schedule the draw and run a memorable event. And you will even get to enjoy the tennis yourself.

- Schedule **live** on the day, **or** prepare your event **in advance**.
- **Flexible**. Vary the type of doubles, change the number of courts, rest players, over-ride court assignments. No shows, or late comers. It's **no worry** with the Double Happy software.
- Easy to set up and quick and **simple to use**.

Double Happy is available **free** to Associations and Clubs affiliated to Tennis NZ.
